Matvæla öryggis- og gæðastefna Nóa Sírius

Matvælaöryggi og gæði eru hornsteinar í uppbyggingu sterkra neytenda- og viðskiptatengsla, langtíma trausts og arðbærra viðskipta. Gott matvælaöryggis- og gæðakerfi, sem er beitt á skilvirkann hátt, hefur því forgang hjá NS og ósveigjanleg afstaða hefur verið tekin í þeim efnum.

Þannig skulu allar vörur sem framleiddar eru af NS uppfylla matvælalöggjöf MAST.

Allar vörur sem NS selur skulu ávallt vera öruggar, löglegar, ósviknar og uppfylla innri kröfur okkar sem og kröfur viðskiptavina og væntingar neytenda.

Sömuleiðis skulu hráefni, samningsframleiddar fullunnar vörur og umbúðaeefni sem keypt eru ávallt vera örugg, lögleg, ósvikin og uppfylla innri kröfur NS.

Nói Sírius Policy for Food Safety and Quality

Food Safety and Quality are the cornerstones in building strong consumer and customer relations and a long-term sound and profitable business. Good Food Safety and Quality systems applied in a uniform way therefore have the highest priority in NS and we have taken an uncompromising stance on this issue.

Thus, all products produced by NS shall comply with Mast food regulations.

All products sold by NS shall at all times be safe, legal, authentic and meet our internal specifications as well as customer requirements and consumer expectations.

Likewise, raw materials, contract produced finished products and primary packaging materials purchased shall at all times be safe, legal, authentic and meet our set specifications.
